run at large unleashed on any public property or on any private property without the permission of the property owner. Any animal so straying upon any public or private property may be declared to be a nuisance and may be immediately seized and impounded; provided, that this section shall not prohibit a person from walking or exercising a dog in a public park or on a public beach, upon any streets or alleys of Eatonville when such dog is on a leash and proper safeguards are taken to protect the public and property from injury or damage from the animal.

B. The animal control officer or any other law enforcement officer may, in fresh pursuit, pursue any sick, dangerous or vicious animal running at large onto private property in an attempt to take up and impound said animal.

C. Confinement of Dogs or Cats in Heat. Every female dog or cat in heat shall be confined in a building or secure enclosure in such a manner that the female dog or cat cannot come into contact with another animal except for planned breeding.

D. Animals Creating Nuisance.

1. It is unlawful for an owner to keep or harbor any dog or cat or other animal which, by frequent or habitual howling, yelping, barking or the making of other noises, annoys or disturbs a neighborhood. Any such dog or cat may be deemed a nuisance and may be seized and impounded.

Such dog or cat may be impounded at the owner's expense, whether licensed or not. (Ord. 2001-12 § 1, 2002).

#### **6.30.040 Rabies control.**

A. Duty of Owner, Custodian and Health Officer.

1. It is the duty of the owner and/or custodian of any dog or cat within Eatonville to quarantine any dog or cat which the owner/custodian has grounds to suspect of being infected with the disease of rabies or hydrophobia.
2. If the police department:
  - a. Has grounds to suspect that any dog or cat running at large in the town is infected with rabies or hydrophobia; and
  - b. Has notice that the dog or cat's owner or custodian cannot be determined; and
  - c. Is able to locate and confine the animal; the police department shall quarantine the animal as provided in this chapter. The biting of a human being by a dog or cat causing penetration of the skin by the animal's teeth is specifically declared grounds for suspecting that such animal is so infected.

B. Quarantine – Notice to Owner. The police department may initiate a quarantine by delivering to the owner or by hand delivering to a responsible person present on the premises a written notice of such quarantine which shall prescribe the duration of the quarantine period; provided, that the period of the quarantine shall not exceed 10 days, unless it is determined that the animal is infected with rabies. The delivery of the notice of quarantine to a responsible person present upon the premises where such animal is kept shall be considered service of a notice upon the owner or custodian. Any such animals so quarantined shall be impounded in the town-approved shelter or Pierce County animal shelter or a local veterinary clinic's kennel; provided further, that in the discretion of the police department, the animal may be quarantined upon the premises of the owner or any other person so long as the requirements of the quarantine are strictly fulfilled.

C. Quarantine – Duties of Owner. During the period of any quarantine, the owner or custodian of a quarantined animal shall not allow the animal to come in contact with any other animal or person or permit such animal to run at large outside of the premises where quarantined or upon the premises itself, unless the premises are enclosed by a secure fence from which the animal cannot escape. When the fence encloses the access to the premises, the animal must be restricted to leave free access to those persons lawfully entering the premises. The owner or custodian shall not remove or cause the animal to be

removed from the premises without the proper consent of the police department. These restrictions shall continue until the animal is released from quarantine. If any animal is found running at large after the commencement of the quarantine period or is removed from the premises where quarantined, it shall be impounded and, unless claimed and redeemed by its owner or custodian within three working days after the expiration of the quarantine period, may be destroyed by the proper authorities.

D. Handling of an Animal Bitten by Rabid Animal. When an animal is known to have been bitten by a rabid animal, the following procedures shall be followed:

1. Unvaccinated Animal. An unvaccinated animal shall be immediately destroyed, unless health department regulations provide otherwise; provided, that upon the election of the owner, the animal may be kept at its owner's expense in strict isolation in a kennel under veterinary supervision for a minimum period of six months following the bite. The head/brain of a dog that has bitten someone must be reserved in order to test for rabies.

2. Vaccinated Animal. A vaccinated animal shall be handled as follows:

- a. The animal shall be immediately revaccinated with an approved rabies vaccine and confined under the supervision of a veterinarian for a period of 30 days following revaccination; or
- b. If the animal is not immediately revaccinated, it shall be confined in strict isolation in a kennel for six months under the supervision of a veterinarian; or
- c. The animal shall be destroyed if the owner or custodian does not comply with subsections (D)(2)(a) or (b) of this section.

E. Publication of Notice of Outbreak of Rabies. Upon any outbreak of rabies or when rabies has been diagnosed within the town and when in the judgment of the police department there is imminent danger of the spread of the disease, the police department shall publish a notice to that effect in the official newspaper of the town for three successive issues. For a period of six weeks following the final publication of the notice, the owner/custodian of the animal shall keep the animal securely confined at all times by leash or in a tight enclosure from which the animal cannot escape. During such period, any animal found running at large in the town shall be impounded and, unless claimed and redeemed by its owner within three working days following such impounding, may be destroyed by the proper authorities. Any person charged with the enforcement of this chapter may destroy any animal found running at large within the town when, after reasonable effort, he is unable to impound the animal or, after reasonable investigation, is unable to locate the owner or custodian thereof. The police department has authority to extend the six-week period for additional six-week periods by notice given in the manner provided in this section until, in his judgment, the imminent danger of the spread of the disease is no longer present.

F. Procedure. The police department is authorized and directed to develop a quarantine program for dogs, cats, and other household pets and otherwise to develop procedures for the enforcement of this chapter. (Ord. 2001-12 § 1, 2002).

### **6.30.050 Kennels.**

A. It is unlawful to own, maintain or operate a kennel in the town without having a current kennel license and current individual kennel license tags for each dog/cat therein. Kennels shall only be licensed in properly zoned areas per the Eatonville zoning code.

B. Kennel Inspection – Conditions Required.

Upon proper filing of an application for an animal kennel license the police department or an authorized agent shall inspect the premises of the proposed kennel. No license shall be granted unless the inspection discloses that the following conditions are all met:

1. Proposed kennel facilities must comply with the International Building Code or as specified in this code;
2. Space must be available for protecting all animals from the weather at all times, and for isolating sick or diseased animals from healthy animals;
3. Walls and ceilings of structures in which dogs will be housed must be constructed in such a way as to permit them to be maintained in a sanitary condition;
4. Floors of such structures must be constructed of material which is tight and which permits floors to be maintained in a sanitary condition;

5. Roaming areas must be fenced, graded and drained in such a way as to prevent accumulation of waste or pools of water;

6. Feeding troughs or bins must be so constructed as to permit sanitation.

C. Granting or Denial of License. Following inspection, the application for a kennel license shall be granted or denied. Any interested person may appeal the decision to grant or deny a license to the town council by filing a written notice of appeal within 10 days of the date of written notice of the decision. Following a hearing, the council shall affirm or reverse the decision, or shall remand the matter with instructions to conduct further inspections.

D. Number of Animals Kept in Kennel – License Transfer. Every license shall state on its face the owner and operator of the kennel, the kennel address, and the maximum number of animals which can be kept in the kennel at any one time. This number shall be determined by the inspector or agent who inspected the premises, and can be modified by the inspector or agent from time to time if kennel conditions or facilities change. No license shall be transferred from one licensee to another, nor shall the location of any kennel be changed, without prior permission of the police department or authorized agent. Such change or transfer shall be granted only after appropriate inspections have been conducted.

E. Kennel License Suspension or Revocation – Standards of Operation. Following a hearing, of which the licensee shall have been given not less than 10 days' notice, and at which he may appear and present evidence, the town council may temporarily suspend or permanently revoke a kennel license for failure to meet any of the following standards of operation:

1. Every kennel operator shall maintain a register, on which shall be fully and currently listed the names and addresses of persons from whom animals are received and to whom animals are sold, traded or given, which register shall be made available for inspection by town officials and their agents at all reasonable times.

2. Animals must not be overcrowded, nor may more animals be kept at any kennel than are permitted by that kennel's license.

3. Animals shall not be exposed to harsh weather or temperatures; nor left without care or control for more than 24 consecutive hours; nor teased, abused or tormented in any way; nor quartered in such proximity as to cause injury, fear or torment; nor exposed to any equipment or material capable of causing injury.

4. Confined or restrained animals shall be given proper exercise.
